COMPANY PROFILE

Maqelinjaz Contractors

2025

ABOUT US

Knowledge, technical innovation and teamwork are at the center of who we are. We have focused on leveraging these assets to deliver solutions that improve customer performance.

Introduction

We are honored to present an overview of our company, which is considered one of the leading companies in the implementation of electromechanical works and low-current systems in the Kingdom of Saudi Arabia. We are active in various government sectors and private projects, supported by an elite team of engineers, supervisors, technicians, and specialized workers in this field.

Our company, Maqelinjaz Establishment, is also recognized as a main contractor and an accredited entity with the Saudi Electricity Company in the field of low and medium voltage works, up to 33 kV.

Our Values

All project management & Implementation firms are not equal.
Maqelinjaz is not confined by the boundaries of industry or functional areas.
In fact, our key differentiators set us apart regardless of project type.

Our Mission

With a passion for excellence, honest and ethical conduct, and uncompromising integrity, Maqelinjaz achieves high-quality results and regularity meets its commitments to its clients.

Core Values

• Safety always comes first at

Maqelinjaz We ensure all of our work is delivered in a safe and responsible manner for all parties.

✓ Commitment

We deliver in a way that exceeds our customers' expectations. We reinvest back into the business to guarantee our expertise is constantly enhanced.

✓ Thinking Ahead

We are a knowledge based company. We establish key relationships collaborating in research and innovation to develop new technologies and solutions.

✓ Performance

We are customer focused, have the ambition, and the drive to provide a consistently high quality standard of service and delivery.

✓ Sustainability

Meeting the energy and environmental challenges for the future, investing in our workforce, creating smart solutions for all and delivering an excellent service.

Our Services

Maqelinjaz is exceptional in being able to provide a set of services across an assets life cycle on DNO and private, commercial network's electrical assets and infra- structure. We are quite diverse and can offer these services across markets and sectors as well as geographically throughout the KINGDOM and Internationally.

1

Consultancy & Design

Providing expert
engineering services.

2

Substation & Infrastructure Projects

Solutions for your major
electrical infrastructure
projects.

3

Overhead Power Lines

Solutions for your
overhead distribution
networks.

4

Underground Distribution Systems

High transmission Cables

Our Services

1 Consultancy & Design

Maqelinjaz delivers cost-effective and reliable engineering services for installations, repairs, and upgrades, specializing in power system planning, electrical design, and maintenance for high-voltage systems. They ensure compliance with industry standards and provide expertise in network studies, system performance, and grid code compliance, supporting reliable and efficient electricity distribution.

Our Services

2

Substation & Infrastructure Projects

Maqelinjaz offers comprehensive consultancy, design, and construction services for major MV infrastructure and substation projects. Their expertise spans substation design and engineering (up to 132kV), civil design, safety engineering, generation connections, and support during construction. They provide a range of construction and maintenance services, including cable installation, switchgear replacement, testing, commissioning, and periodic maintenance. Additional capabilities include emergency response, fault repairs, and provision of transformers, switchgear, and emergency generators. They also supply Senior Authorized Engineers for operational support, offering services through fixed or short-term contracts and turnkey projects, backed by their in-house training facility.

Our Services

3

Overhead Power Lines

Maqelinjaz emphasizes the critical importance of reliable electricity supply and leverages its expertise in LV and HV networks to deliver comprehensive solutions for line reconductoring and asset replacement. Their services include project management, turnkey solutions, route evaluation, design, construction, and maintenance of overhead lines across all distribution voltages. Key offerings encompass asset replacement, safety management, outage coordination, condition assessments, material procurement, new line construction, and fault repairs. With a focus on safety and quality, their overhead line division handles both major projects and bespoke designs, ensuring compliance with rigorous health and safety standards and client-approved methodologies.

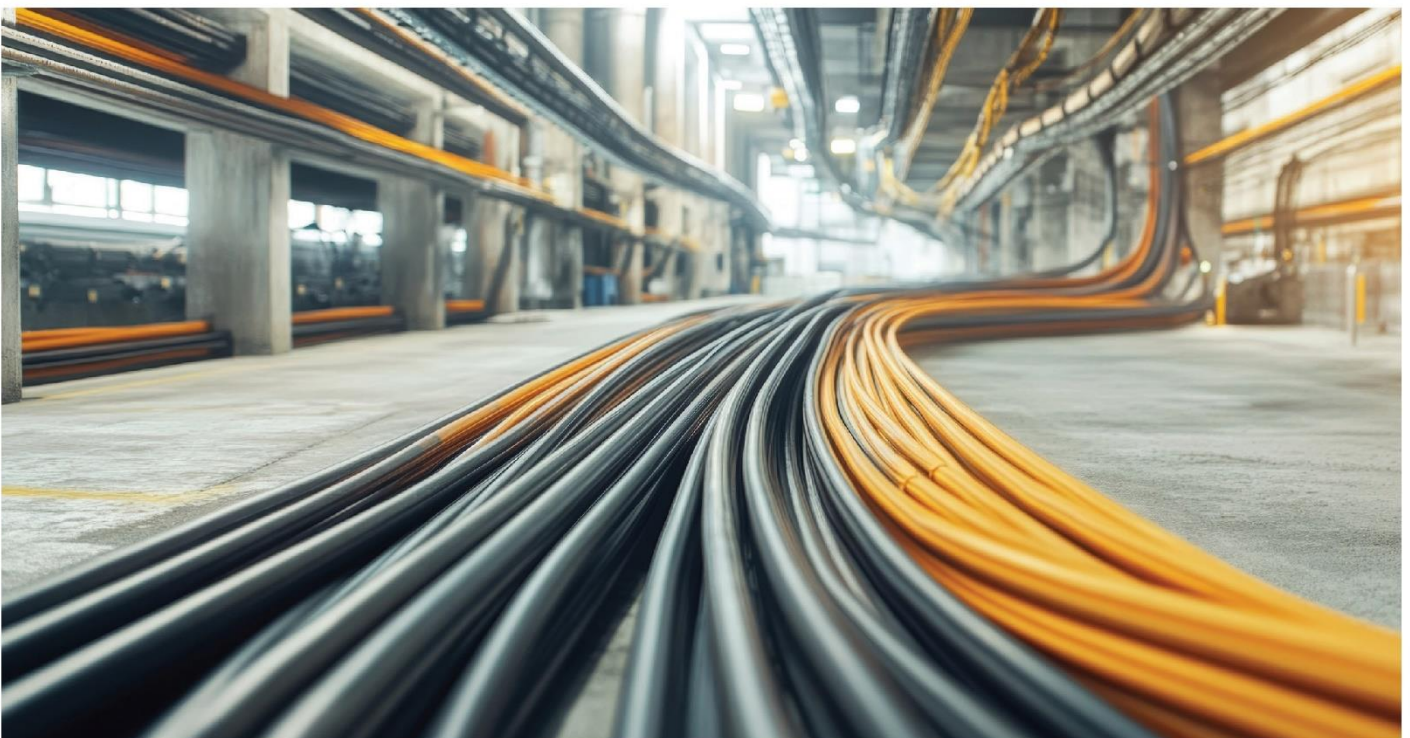

Our Services

4

Underground Distribution Systems

Maqelinjaz provides flexible and cost-effective MV and LV cable jointing and underground distribution solutions for utility companies and the electrical construction industry. Their comprehensive services include project management, design, access consents, cable jointing (up to 132kV), planned and emergency fault work, cable installation, refurbishment, and earthing system design and installation. They specialize in cable sizing, route design, environmental impact minimization, and engineering and design for underground utilities and electrical equipment. Their expertise spans low, medium, and high-voltage installations, including cables, transformers, switchgear, generators, and load centers. AL GHOREES also handles cable termination, jointing, and equipment placement in distribution rooms, ensuring optimized performance and adherence to technical specifications.

Healthy and Safety

AT Maqelinjaz SAFETY COMES FIRST

Some of Maqelinjaz 's work activities are considered high risk or they are conducted within high risk environments. These include works on high voltage distribution networks and high pressure and temperature steam systems. At all stages, from planning to delivery Safety Comes First.

Maqelinjaz has a dedicated Health & Safety department employing safety professionals qualified up to diploma level and chartered safety and health practitioner status. They are continually reviewing and monitoring health & safety performance of the business to identify continual improvements to secure the safety and health of its employees, so they can still successfully operate in the high risk sectors.

We operate a Health & Safety Management system that is accredited to OHSAS 18001 – 2007 by Lloyds Register of Quality Assurance. The standard requirement for continual improvement is matched by the company-wide commitment to the safety and health of its staff and everyone else who may be affected by our works.

Senior management endorse the importance of safety and good health throughout the business. There is a positive safety culture to ensure safety practices are at the forefront of our organisation.

The company has a Corporate Safety Steering Group which leads the way with the Safety Comes first ethos.

In addition the company has a team of internal auditors who continually monitor our safety performance and compliance to ensure that safety does really come first in practice. This is in addition to our continual external audit service provided by Lloyds Register of Quality Assurance.

السادة / الي من يهمه الامر

المحترمين

السلام عليكم ورحمة الله وبركاته,,,,,

تحية طيبة وبعد،

نفيدكم نحن شركة الاتحاد المتقدم للمقاولات، سجل تجاري رقم / 1010877603

بان مؤسسة معقل الإنجاز للمقاولات، سجل تجاري رقم / 1116627588

قد عملت لدينا في مشروع تركيب سياج أمني مضاد للطائرات بوادي الدواسر

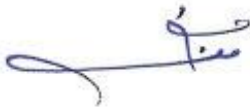

تمديد الكابلات الكهربائية .

وقد اعطي هذا الخطاب بناء على طلبهم لتقديمه الي من يهمه الامر دون ادني مسؤولية علينا.

ولا يعتبر هذا الخطاب اخلاء مسؤولية للمقاول للأعمال المنفذة من قبله.

هذا وبالله التوفيق وتفضلوا بقبول وافر التحية والتقدير
